# HOW TO PLAY

## RULES GUIDE

Four Card Poker®, similar to Three Card Poker®, is available at Potawatomi Bingo Casino.

Players play against the dealer and there is an optional side bet, Aces Up. The dealer always qualifies and players may wager one to three times their Ante wager, which is the primary difference between this game and Three Card Poker.

Players make an Ante wager to compete against the dealer and may also make the Aces Up wager to play against the pay table.

Each player receives five cards to make their best four-card hand. The dealer receives six cards—one of which is face up—to make their best four-card hand.

Players then decide whether to make a Play wager or fold. The Play wager may be one to three times the Ante wager.

The dealer reveals his hand and compares it to each player's hand. If the player's hand beats or ties the dealer's hand, the Play or Ante wagers are paid an even amount.

An Automatic Bonus is paid on all Ante wagers when the player's hand is three of a kind or better, whether or not the player's hand beats the dealer's.

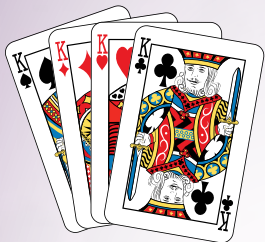

The Aces Up side bet wins when the player has a pair of Aces or better.
