

SIXTEEN PLAYERS, TWO DICE, ONE SHOOTER. raps is the most exciting game at Potawatomi Bingo Casino. One shooter of the dice determines the outcome for up to 15 other players. Craps also features a variety of betting opportunities.

GAME PLAY

The puck is the most important piece of equipment on the table—you'll see it immediately. When in the OFF position, it indicates the next round is ready to begin. The next shooter takes the dice and rolls. If a 2, 3, 7, 11 or 12 is rolled, the round is over immediately. If a 4, 5, 6, 8, 9 or 10 is rolled, that number becomes the point. The puck is then turned to ON and placed on the point. The shooter then continues to roll until the same point is rolled again or a 7 is rolled. The round is then over, and a new shooter takes the dice.

FIELD BET

One of the most popular in the Casino, this is a onetime bet that the next roll will be a 2, 3, 4, 9, 10, 11 or 12. The 3, 4, 9, 10 and 11 pay even money, and the 2 and 12 pay 2 to 1.

BETTING THE PASS LINE

Betting with the dice. This bet should only be made when the puck is OFF. When the shooter rolls a 7 or 11 on the first throw (come-out roll), it is considered a natural and you win. When the shooter rolls a 2, 3, or 12 on the come-out roll, it is craps and you lose. Any other number becomes the point. You win if the point repeats before a 7 is rolled, and your bet is removed if a 7 is rolled before you make your point. Place these bets in the area marked *Pass Line* on the layout.

CRAPS ETIQUETTE

ROLL SO BOTH DICE HIT THE OPPOSITE BACK WALL.

THE SHOOTER MAY HANDLE THE DICE WITH ONLY ONE HAND.

THE DICE SHOULD STAY IN PLAIN SIGHT OF CASINO STAFF.

BETTING THE DON'T PASS LINE

Betting against the dice. This wager can only be made when the puck is OFF. You lose on a natural 7 or 11 and win on a 2 or 3. The number 12 is a push: nobody wins, nobody loses. Any other number becomes the point, and you win if 7 is rolled before the point is repeated. Your bet is removed if the point is made before a 7 is rolled. Place these bets in the area marked Don't Pass Line.

COME BETS

Again, this is betting with the dice, except that Come bets are made after the puck is ON. You win on a natural 7 or 11, and your bet is removed on craps—2, 3 or 12. Any other number becomes the come-point and you win if your come-point is made before a 7 is rolled. Place these bets in the area marked *Come*.

DON'T COME BETS

This is the reverse of betting the Come. You lose on a 7 or 11, and win on a 2 or 3; 12 is a push. If a 7 is rolled before your don't come-point is made, you win. If the don't come-point is made before a 7 is rolled, you lose. Place these bets in the area marked *Don't Come*.

BETTING THE TRUE ODDS

Once the puck is ON, you may bet true odds—up to

10 times your original bet—in addition to your flat (original) bet. The odds win if your flat bet wins, and your bet is removed if your flat bet loses. Payouts are determined by the number combinations on the dice. You are betting on the number of ways on the dice to win versus the number of ways on the dice to lose; the house will pay out the difference:

- 4 and 10 pay 2 to 1
- 5 and 9 pay 3 to 2
- 6 and 8 pay 6 to 5

PLACE BETS

You may take a Place Bet any time on any or all of the following numbers: 4, 5, 6, 8, 9 or 10. If the number on which you have made a Place Bet rolls before a 7, you win and are paid as follows:

- 4 and 10 pay 9 to 5
- 5 and 9 pay 7 to 5
- 6 and 8 pay 7 to 6

Place your cheques in the Come area and tell the dealer on which number you want to bet. Place bets can be removed at any time. These wagers do not win or lose when the puck is OFF.

OTHER BETS

Take note of the other possible bets on the table layout: proposition, horn, world and hard way. Payouts are included on the layout itself; Casino personnel can provide you with further information.

And that's how you play craps. For information on how to play other table games offered at Potawatomi Bingo Casino, just ask a member of our staff.

Good Luck!
