ULTIMATE
TEXAS HOLD'EM®

HOW TO PLAY

RULES GUIDE

Ultimate Texas Hold'Em® is available on the main casino floor.

Players play against the dealer by making an *Ante* and *Blind* wager of equal value. Players can also make the optional *Trips* wager, which pays on any hand of trips or better regardless of who wins the hand.

Five community cards are placed face down on the layout.

The players and dealer receive two cards each and then make a *Play* wager of three or four times their *Ante* wager or check.

The dealer then reveals the "Flop." Players who have not made their *Play* wager may now do so at two times their *Ante* or check.

The dealer reveals the "Turn" and the "River." Players who have not yet made a *Play* wager must now make a *Play* wager equal to their *Ante* wager or fold.

The dealer will reveal his hand and qualifies with a pair or better. If the dealer does not qualify, all *Ante* wagers are returned to players and all remaining wagers remain in action.

The dealer will then compare his hand to each player's hand. The best poker hand wins.

The *Blind* pays if your winning hand is at least a Straight (see layout for odds). If you beat the dealer with less than a Straight, it pushes.
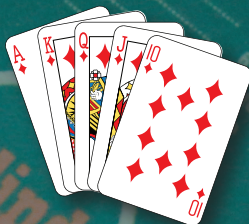

Good Luck!
